Disaster Relief Category Includes:

SPRINGFOUR-AUTHORED FINANCIAL HEALTH RESOURCE GUIDES

SpringFour's Financial Health Resource Guides provide recovery information on Hurricanes Helene and Milton, floods, tornados, wildfires, and more.

CITY & COUNTY EMERGENCY MANAGEMENT AGENCIES

City & county emergency management agencies provide the most up-to-date information about disaster response efforts in a consumer's immediate area.

NATIONAL ORGANIZATIONS & FEDERAL GOVERNMENT

Following a disaster, resources generally come from national organizations and the federal government to address immediate needs.

FEMA DISASTER DECLARATIONS & INDIVIDUAL ASSISTANCE BY COUNTY

As FEMA disaster declarations are issued, we add those at the county level when a county is eligible for Individual Assistance. We add the declaration as a resource so that the application for assistance from FEMA is easy to find with a quick search for Disaster Relief resources.

LOCAL NON-PROFITS & FOUNDATIONS

In the weeks and months after the disaster, as damage and resource needs have been assessed, local nonprofits and foundations get more involved and provide additional resources.

OTHER DISASTER RELIEF RESOURCES

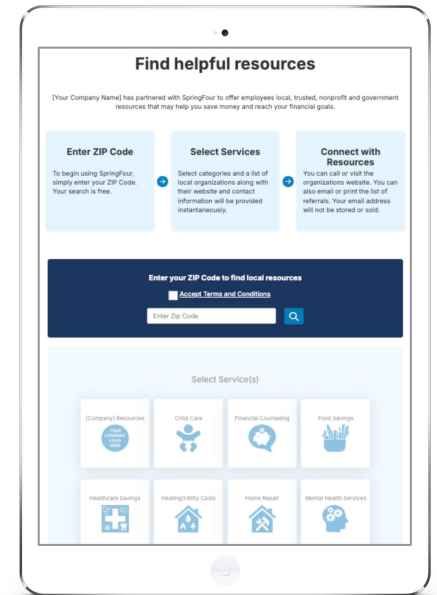

We add resources as they come online, especially as they assist with the recovery and rebuild phases. That can be weeks (or months) after the disaster occurred, but that's when people have moved past the initial response phase and need help preparing a plan for financial recovery and rebuilding.

What To Do With SpringFour to Support Disaster Relief Efforts
